

SYSTEM AND METHOD FOR SHIPPING MATERIAL

ABSTRACT OF THE DISCLOSURE

5 A system and method for interactive inquiry and editing throughout the life
cycle of the shipping request by the requester and various approving managers. Once
the request is approved, shipping labels are automatically printed, and any necessary
domestic or export documentation is electronically prepared by the application
software. The application is adapted to provide each processing or approving party
with the created shipping documentation upon request. All information received and
10 relied upon by this process is saved in a database for tracking the shipping material,
and for auditing the shipping process.
